Exhibition Recap

ProPak China 2023, the 28th International Processing and Packaging Exhibition organized by Sinoexpo Informa Markets, concluded successfully at the National Exhibition and Convention Center(NECC), in Shanghai on June 21. The joint collaboration with FoodPack China, Hi & Fi Asia-China, HNC and Starch, made a remarkable work. **721** exhibitors from **16** countries and regions were attracted to attend, and the exhibition space reached 80,000m². Based on the strong coupling effect of the upstream and downstream industry of Hi & Fi Asia-China, and Starch Expo under one roof, ProPak China this year attracted a large number of buyers of the end user markets on site. The combined visitorship across the four events reached **47,631** professionals from **102** countries and regions during the three show days, increased by **20.17%** compared to Year 2021.

Visitor Quotes

This year, We visited the relevant machinery and equipment at ProPak China with quite large harvest, also knew some advanced technology, which is great help for us to improve our own equipment in the future.

Zhiming Sun, Procurement Manager, FUJIAN NANPING NANFU BATTERY CO., LTD.

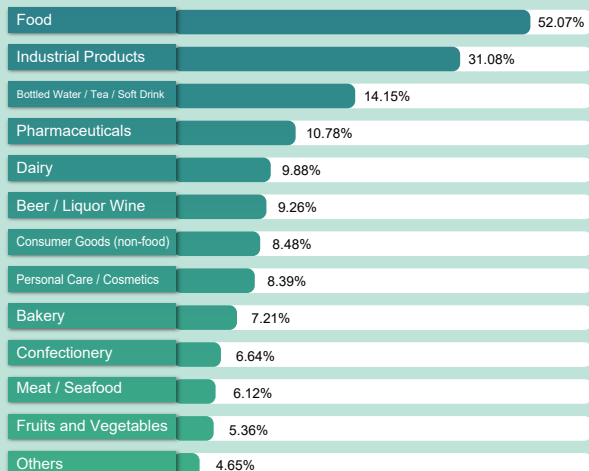

There were crowds and enthusiastic exchanges in front of various booths at ProPak China. As Weichuan who has been focusing on refrigerated beverages for 20 years, we hope to pay full attention to consumers' refined choices. Visiting the exhibition can help us know the latest technology and market trends, so as to be closer to nature, the market, and consumers. I also hope to get together again next year!

Xiao Li, Head of PR, Weichuan

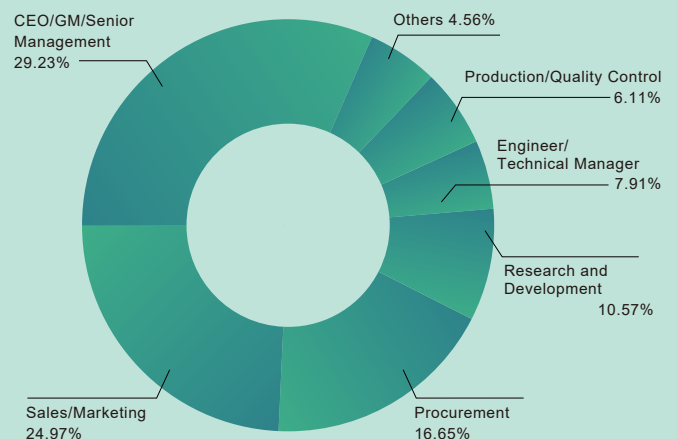

Our main purpose of visiting this exhibition is for some sophisticated equipment. We find the current degree of intelligence of equipment is constantly improving, but also learned a lot of cutting-edge information conducive to the procurement of late products through the exchange and negotiation with many exhibitors.

Zhengbin Zhuang, Regional Manager, Anqiu Fuhua Food Company Limited

The powerful resources of ProPak China in the field of innovative packaging technology provide strong support for emerging product design ideas. "Packaging Design Hub" was specially set up for product designers and brands, to inspire them to create a product that is eco-friendly, smart, wholesome, stylish with unique functions and captivates the hearts of consumers. And there are pieces of end products and samples made of new materials or leading technologies with good design, as well as creative design works from talented designers were displayed.

A number of innovative technology forums and events were held to discuss intelligent packaging applications, logistics technology innovation and FMCG processing and packaging trends and many other hot topics of the industry concerns as well as machine display in the "Smart Manufacturing Hub". Both "Packaging Design Hub" and "Smart Manufacturing Hub" provides a platform for industry professionals to exchange technological trends and showcase products as well as inspiration.
